Dr. C. C. Little
Bar Harbor
Maine

Dear Dr. Little:

You probably are aware of the work of the National Fund for Medical Education, and that it operates through committees representing various industries throughout the country. One of the divisions for which we, as yet, have no established committee, is the Tobacco section. I am, therefore, writing to ask if you would advise me about any leaders in this field who might be willing, or could be persuaded, to become interested in the National Fund and help us organize a committee for the Tobacco Industry.

The usual procedure is for Mr. Colby M. Chester to write a personal letter explaining the functions of a chairman and making it clear that all the detailed work is handled here at this office. I hope very much you may be able to give us some suggestions about individuals to approach.

Father has been at Manset for his usual summer stay with George Wheelwright, and I expect to be in Deer Isle shortly.

With kindest regards, I am,

Sincerely yours,

Howard Corning, Jr
